

## Not your Grandmothers Quilt Shop!

Please don't get me wrong, I don't mean anything negative about this comment! When I first started the store, I was all over the map trying to please everyone. I had every type of fabric, but never the "kind" anyone wanted. I then realized that we sold what we loved, and we love bright, contemporary, happy fabric. So we focused our fabric buying in that direction and *Bright and Happy* is a great way to describe our store. We have lots of basics, but we also carry many groups from Moda, Westminster, Riley Blake, Free Spirit, RJR, Benartex and many others. We have a large selection of novelty prints for kids quilts and a good selection of Batiks. We display many quilt samples throughout the store! We also love to make bags, wall hangings, and clothing. Check out our Sample Gallery to see some of our samples!

BERNINA sewing machines are also a passion and Machine Embroidery is one of our other loves. We carry a full line of threads, stabilizers and designs in all machine formats. We have a gallery in the store that allows you to choose from over 50,000 designs to purchase. We also have many machine embroidery classes and clubs for you to participate in!

Overall...we are a very active, fun shop that strives to keep you inspired and wanting to continue creating!
